Christie

The VQ Christie DAB Digital & FM Radio with Bluetooth / NFC connection couples vintage design appeal and innovative modern functionality. A design icon of the future with a stunning premium enamel front fascia, the first consumer audio product in the world designed with this highly tactile material. Christie is also wrapped in sumptuous leatherette continuing the tactile experience 360 degrees.

Christie is a comprehensively connected radio featuring tuners for DAB / DAB+ Digital Radio alongside traditional FM Radio reception. This means you can listen to all your favourite radio stations from your national, commercial or local broadcasters. It couldn't be easier to find your favourite radio station with auto-scan and on DAB / DAB+ Digital radio stations are even listed alphabetically making it even easier to find the one you want. Once you've got a station you love, you can save it to one of sixty total radio presets.

If you tire of the radio and need to relax with your own playlist, audiobooks, podcasts or any other audio content the wireless Bluetooth or one-touch NFC connection will let you pair your phone, tablet or any other smart device to use Christie as your speaker. Once connected you can listen to music from the likes of; Apple Music, Deezer and Spotify or listen to Audiobooks and Podcasts from the likes of; Audible, iTunes and Acast.

Christie also features a range of cable connections, a headphone and 3.5mm aux-in – as you might expect. However, you might not expect the handy USB charge port, which means you can use the radio to power-up your phone / tablet or any other device. Ideal for when plug sockets are at a premium.

Whatever you choose to listen to, or how you choose to listen to it, it will sound fantastic. Christie features a premium ultra-wide full range 10 Watt speaker which is automatically tuned via intelligent Digital Sound Processing (DSP) technology.
