

Designer Kindle Paperwhite Case

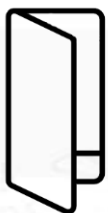

A designer Kindle Paperwhite Case by VQ really is the perfect way to ensure your Amazon Kindle stays protected, but also looks stylish and feels personal to you.

The lightweight case is wrapped in premium PU leather featuring a designer print of your choice and feels luxurious in the hand with our extra special attention to the plush final finishing, which also includes hand stitched detailing.

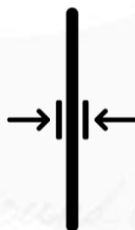

Inside, your Kindle is fitted in a matte finish moulded bumper case which is easy to fit your device into but provides maximum protection when you're out and about. The inside sleeve of the case is made from a soft touch microfibre which will help protect the screen of your Kindle.

This designer Kindle case is not just beautiful and practical, it's also smart, as it's clever enough to have an auto sleep and wake feature. When you close the cover of your case it will put your Kindle into sleep mode, so you're not wasting battery power and of course then when you open it back up, you can start reading straight away.

This case is compatible with:- Kindle Paperwhite 1st Generation (Released 2012), Kindle Paperwhite 2nd Generation (Released - 2013), Kindle Paperwhite 3rd Generation (Released 2016).
Not suitable for Kindle Paperwhite 4th Generation (Released - 2018).

Premium tactile materials used through-out the case interior and exterior.

Slim design for protection of the Kindle without being too bulky to hold or carry.

Intelligent auto sleep and auto wake feature for convenience & to maximise battery life.
