Lark

Lark by VQ is simply a beautiful bedside alarm clock radio making mornings a little more enjoyable with DAB / DAB+ Digital & FM Radio and also Bluetooth streaming.

Lark features comprehensive radio reception with DAB / DAB+ Digital radio alongside traditional analogue FM reception. This means you can enjoy all the stations in your local area from; national, commercial and regional broadcasters. Once you've found a favourite station you can save it to one of two convenient quick recall buttons or the full menu of 60 available presets. These presets can be used to switch between your favourite stations quickly or used within the alarm function.

If you prefer your own music, podcasts or even audiobooks then you'll be pleased to know Bluetooth comes as standard with Lark so you can connect your phone, tablet or any other smart device. Best of all Lark features two USB ports which means you can charge up your device(s) as you stream, saving on precious bedside plug sockets.

No matter what you listen to it will sound fantastic thanks to the dual ultra-wide full range 3W stereo speakers and an integrated passive radiator for enhanced sound quality. Your acoustic experience can be further tailored thanks to the MyEQ function with genre specific equaliser settings or independent bass and treble controls.

Lark features a 4" high contrast ultra-wide angle screen with an auto-dimmer which means you can check the time day or night but will never be dazzled by ambient light. This crystal clear screen is framed with chrome detailing in a timeless modern style.

Lark is designed with attention throughout from the acoustics to the screen and of course the materials used, which sees the body of the radio wrapped in premium fabric and matched with an oak or walnut effect rear panel.
