Rosie-Lee

Rosie-Lee by VQ is a stylish DAB/DAB+ Digital & FM Radio with Bluetooth, an ideal bedside companion and a pleasure to awake with, no matter what time.

Rosie-Lee features comprehensive connectivity with DAB / DAB+ Digital Radio alongside traditional analogue FM reception. This means you can listen to any of your favourite stations, from; national, commercial and local broadcasters. Once you've found your favourite stations you can save them to one of sixty presets for easy recall and for use within the alarm function.

If you tire of the radio or need a change of mood, the addition of a Bluetooth connection will come in handy – allowing you to wirelessly connect your smartphone or tablet and stream music from the likes of; Apple Music, Deezer or Spotify. Of course as a bedside companion with Bluetooth Rosie-Lee is also ideal for listening to audiobooks or podcasts before bedtime.

No matter what you choose to listen to it will sound fantastic, and far superior to your traditional bedside alarm clock radio. The dual ultra-wide full range speakers deliver a room filling 10 Watt audio output and can be adjusted to your own personal taste with the comprehensive equaliser settings with handy presets or independent bass and treble control. Rosie-Lee also features VQ's unique Analogue Signal Processing technology for enhanced sound quality.

Rosie-Lee features a 3" high-contrast ultra-wide view screen with an auto dimmer, meaning you can easily check the time or any other details when the radio is placed at your bedside or anywhere else in your home.

Rosie-Lee doesn't just feature class leading attention to detail on the technology and acoustic front – Rosie-Lee is a labour of love and a craftsman's dream. The body of Rosie-Lee is handcrafted from a single piece of wood, which is then curved to form the main shell and wrapped in premium PU leather. The front fascia is again a single piece of real wood which is then cut for the grille and screen mounting. If you're as passionate about premium materials and real wood as we are, you'll love Rosie-Lee.

Your Rosie-Lee features handcrafted detail through-out but most importantly on the front fascia where the choice of real wood finishes are left raw so you can feel the exposed grain. The use of real wood also means every single Rosie-Lee is a unique one of a kind.
